

## Obstetric Patient Safety: OB Emergencies Workshop 3<sup>rd</sup> Edition

Despite efforts from many collaborating agencies and professional organizations, the maternal mortality rate in the United States continues to remain high. The Obstetric Patient Safety (OPS): Obstetric Emergencies Workshop 3<sup>rd</sup> Edition is designed to help clinicians identify, assess, and manage the care for patients with an obstetric emergency through simulation and debriefing. Clinicians working in the following departments: perinatal, emergency, medical-surgical, ICU, and critical access will find this course essential to caring for patients experiencing an obstetric emergency.

### Learning Outcomes:

- Identify key factors that place the patient at higher risk for an obstetric emergency.
- Demonstrate effective management for pregnant or postpartum person during an obstetric emergency.
- Role-play with a multidisciplinary team using simulation-based cognitive, behavioral, and technical learning strategies to practice management of a patient experiencing an obstetric emergency.
